

## **KEN GRENEMYER, Continental Divide Fence**

Ken grew up in Broomfield, CO and graduated from Lafayette High School. He worked for Martin Marietta until he got into the fence business. Ken worked for Lifetime Fence for several years before seeing the need for a local fence distribution company serving Denver and surrounding states.

Ken joined with four partners in 1976 to form Continental Divide Fence. Through the years the other partners were bought out leaving Ken as sole owner. Ken, who is devoted to his family, has since brought into the company his daughters, son-in-law and grandson to help run Continental Divide Fence along with twelve dedicated employees, several of whom have worked with Ken for 10 – 27 years.

Continental Divide Fence sells to lumberyards, contractors and businesses throughout Colorado, Wyoming, Montana, Kansas and Nebraska. They carry a full line of wood, vinyl, chain link, and ornamental iron fence material.

Ken has taken great pride in servicing the lumber dealers in the Rocky Mountain Region with quality fencing supplies. He has been a member of Mountain States Lumber and Building Material Dealers Association since 1978 and has participated in our Expo through the years. At 77 years young, you can still find Ken in the office every day overseeing the daily operation of the company.
